

*The model 8700 vinyl garage door is engineered to provide a maintenance free and elegant look that will last a lifetime. It won't rust, fade, crack, or dent. It is the ultimate door for easy-care living.*

### Colonial panel style

Rich woodgrain texture and deep raised panel offers the timeless design of freshly painted hardwood.

This door has full PVC color construction. This means scratches will never show because the color goes all the way through the material.

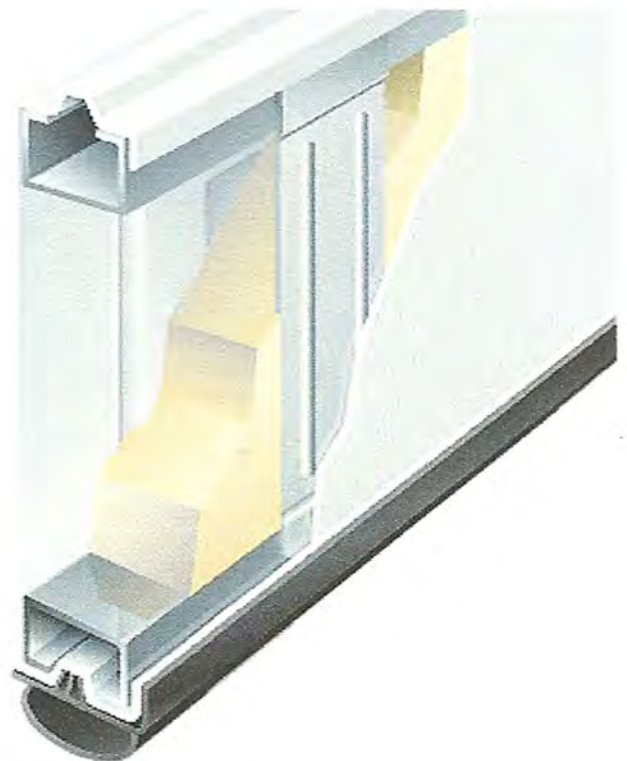

The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays.

R-10 polyurethane insulation is permanently bonded to the vinyl skin for energy efficiency, durability and added rigidity.

Twin 20-gauge steel C-channels run full length of each panel and are anchored to the interior steel stiles for strength.

Recommended for coastal regions for its resistance to salt air and sand.

\* Insulation values have been calculated in compliance with Dasma TDS-163 industry standards.

### Choose a window style

*StyleLine™* windows enhance the look of your garage door. The snap-in inserts let you change the design whenever you please. You can also remove them for easy window cleaning.
